

# Relationship Skills & Collaborative Problem-Solving

The following resource is designed to support a structured facilitation session based on content from the eight asynchronous Transformative Social and Emotional learning (SEL) professional learning modules. Each session seeks to develop collective understandings of Transformative SEL practices and competencies in a group setting. School and district facilitators are to adapt this guidance to lead groups of educators in lesson-planning, reflection, and more.

This Collaborative Learning Session (CLS) is scheduled to take 55 minutes, with optional extension activities that would lengthen the session to 70 minutes.

# Learning Module Overview

The Relationship Skills & Collaborative Problem-Solving Module invites educators to explore the essential skills and mindsets that foster healthy, supportive relationships and enable collaborative problem-solving within diverse school communities. Strong relationship skills are foundational for building trust, connection and resilience in both adult and student learning spaces. Grounded in Oregon’s Transformative SEL Standard 4, this module supports educators to deepen their understanding of how relationship skills and collaborative problem-solving foster belonging, strengthen school culture and create conditions for collective thriving.

## Adaptive Facilitation

The agenda, activities and resources included in this guide are intended to spark inspiration in facilitators. Facilitators may adapt these materials to better suit the context of educators they are supporting. This guide refers to the [Transformative SEL Facilitator Spark Tool](#) which facilitators can use to scaffold reflection, integration and activity planning.

## Transformative SEL Guiding Principles

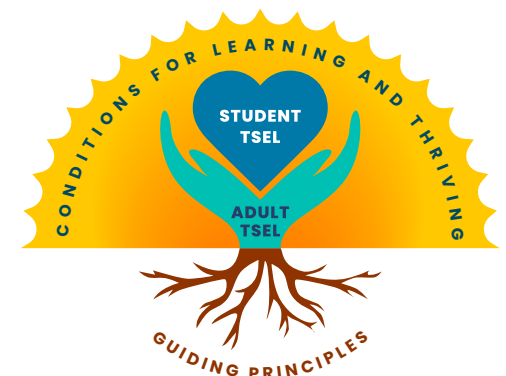

Guiding Principles (Figure 1) represent the roots of the Transformative SEL learning ecosystem (Figure 2), serving as the foundational values and beliefs that can lead to fruitful interactions, communication and decision-making.

Figure 1. Guiding Principles

A transformative approach to facilitating each Collaborative Learning Session (CLS) will attend to the Guiding Principles. Facilitators can embed **culturally responsive** education in sessions by affirming and honoring the knowledge, experiences and cultures that adults bring to the space. Opportunities for dialogue and relationship-building are built into each session so that participants can learn more about each other and facilitators can harness the collective wisdom present in each session. A **community responsive**

Figure 2. Transformative SEL Framework

approach ensures that facilitators give educators time to check in, challenge and engage with the content as needs, interests and tensions become apparent. Facilitators can uplift their own learning journeys with the content while supporting educators to engage in productive discourse pertaining to mindset shifts. Facilitation that is **strengths-based** affirms the perspectives and contributions of participants as assets for deepening Transformative SEL learning. These sessions represent unique opportunities for collaborative, reciprocal learning and problem-solving that humanizes the concepts through applied activities and scenarios. Facilitators can be **trauma-informed** by prioritizing trust-building activities that promote positive relationships, while also creating transparent, predictable and positive routines for new learning to regulate participants' brains, minds and bodies. Facilitation that is **grounded in neuroscience and the science of learning and development** builds on evidence about neuroplasticity and neurodiversity to appreciate and build on each adult's potential for learning while encouraging participants to show up as their authentic selves. When facilitated with these principles in mind, each CLS can spark curiosity in educators, encouraging continued exploration and iteration in the classroom.

## Signature Practices

Figure 3. Signature Practices

Inclusive Welcome

Engaging Strategy

Intentional Close

A transformative approach to SEL is an ongoing process and practice of how adults and students show up for one another throughout the learning ecosystem. This guide describes how facilitators can use Signature Practices (Figure 3) as an entry point to putting the Guiding Principles into action

throughout each CLS. In response to frequently asked questions such as “What does SEL look like?” and “How can we start?”, the Collaborative for Academic, Social, and Emotional Learning (CASEL) developed three Signature Practices: **Inclusive Welcome**, **Engaging Strategies** and **Intentional Close**. Facilitators will interweave each practice into learning experiences for adults, opening each session with an Inclusive Welcome that builds community and sets the stage for learning, embedding Engaging Strategies throughout the session to support adults in connecting content to their own learning experiences, and closing sessions with opportunities for reflection, shared sense-making or identifying next steps through an Intentional Close.

## Preparing for the Relationship Skills & Collaborative Problem-Solving Session

Facilitators should approach this session with care, recognizing the emotional and relational depth of the content. Encourage participants to engage with vulnerability while also honoring each other's privacy. It's important to normalize any discomfort that may arise when discussing topics like trust, conflict and relationships, as these conversations can be both personal and complex. Throughout the session, remain flexible with timing to meet the needs and energy of the group, and consistently model key relational skills such as active listening, curiosity and empathy. Establish clear norms and agreements at the outset—especially around listening and confidentiality—to create a safe, respectful space for open dialogue and shared learning.

## Agenda and Participant Tool

### Materials

- ⦿ Chart paper
- ⦿ Markers and pens
- ⦿ Sticky notes
- ⦿ Print: [Relational Case Studies](#)
- ⦿ Print and place around the room: [Gallery Walk Quotes](#)

### Learning Goals

- ⦿ Reflect on the importance of cultivating the skills to build and sustain healthy, supportive relationships and navigate diverse settings with care and respect.
- ⦿ Develop a toolbox of practices that foster relational trust and support effective collaboration.

## Facilitator Spark Tool

Each Collaborative Learning Facilitator Guide provides specific, useful strategies to use with K-12 educators and staff. CLS agendas are written with a range of staff audiences and learning contexts in mind. Facilitators may need to adapt portions of the agendas for timing, learner familiarity with session context and group sizes or spaces. The [Facilitator Spark Tool](#) is intended to support facilitators as they integrate Transformative SEL into their professional learning practices. This tool offers reflective prompts, planning tools and adaptable strategies that align with CASEL's Three Signature Practices and Oregon's Transformative SEL Guiding Principles. By centering educators' identities, experiences and well-being, the tool helps foster professional spaces that model the competencies we aim to cultivate in students.

## Extension Guidance and Activities

Invite participants to consider how they might support their students to engage in collaborative problem-solving by exploring the following relationship-centered resources:

- [SEL for Students: Social Awareness and Relationship Skills](#)
- [Asking Powerful Questions](#)
- [Cultivating Caring Relationships at School: 15 Activities That Promote Staff and Student Connection](#)

# Relational Scenarios

Small groups will choose two or three of the following Relational Scenarios to discuss using these guiding prompts:

- ⦿ What relationship skills are needed in this situation?
- ⦿ What relational moves might help repair or strengthen connection?
- ⦿ How might identity, power, or perspective play a role in this scenario?

## 1. Student–Student Conflict

Two middle school students argue during group work. One feels ignored and accuses the other of being bossy. The conflict escalates and impacts the group dynamic.

## 2. Teacher–Student Tension

A student feels publicly embarrassed after a teacher redirects their behavior in front of the class. The student becomes withdrawn and stops participating in future lessons.

## 3. Family–School Communication Breakdown

A caregiver receives a behavior report without prior communication. They feel blindsided and send a frustrated email, saying the school doesn't understand their child.

## 4. Peer Miscommunication Between Staff

Two staff members misinterpret each other's tone in an email exchange. The miscommunication leads to tension during meetings and avoidance in collaboration.

## 5. Cultural Misunderstanding

A student's cultural tradition conflicts with a classroom routine (e.g., not making eye contact with adults). The teacher misreads this as defiance and issues a behavior referral.

## 6. Teacher–Teacher Conflict

Two educators disagree on how to discipline a student who frequently disrupts class. One wants to send the student out, while the other prefers restorative conversation. The disagreement creates friction on the grade-level team.

## 7. Student Identity and Belonging

A nonbinary student feels uncomfortable during a school assembly where only binary gendered terms (“boys and girls”) are used. They express feeling invisible and unsupported.

## 8. Navigating Disability & Accommodation

A student with an IEP is consistently pulled from an elective they enjoy to receive services. The student feels frustrated and the support teacher feels the service is critical. The tension is brought to an IEP meeting.

## 9. Administrator–Teacher Tension

A principal gives public feedback to a teacher during a staff meeting about a classroom practice. The teacher feels undermined and less willing to share ideas in future meetings.

## 10. Student Peer Group Exclusion

A group of students intentionally excludes a new student from recess games. When the excluded student reports it, a teacher overhears a peer saying, “No one likes her anyway.”
